

RESTORE Sacramento

Schoolyard Restoration Training

Building wildlife habitat on your schoolyard!

Bring a team from your school to join local teachers and restoration experts for a fun, hands-on week.

June 20 - 24, 2011

8:30 - 4 M-Th, 8:30-1:30 F

Based at beautiful Soil Born Farms along the American River Parkway

Learn the steps to creating a restoration project on school grounds through:

- outdoor, content standards-based lessons designed to extend and enhance your existing curriculum
- field trips to local schoolyard habitat and restoration projects
- meeting a network of engaged educators
- learning about funding and partnership opportunities

\$50 - includes curriculum materials & lunch on Monday & Thursday

Past participants are saying:

"I can't wait to use these lessons next year!"

"What a great week, can I come back on Monday?"

"Great hands-on activities with time to discuss practical application."
